ROBERT H. CHASTNEY

Principal of Montpelier High School

My most vivid recollection of my first year of teaching is not an incident but the group of students I had in a class in beginning Latin. Among its forty-three members was a Russian boy whose father, an army officer loyal to his Czar, had been murdered by the Bolsheviks. The lad had made his escape to America with his mother by the way of Siberia, Manchuria, and China. Another member was a young South American whose family had come to America for refuge after the failure of a revolution. There was also a Chinese boy who later attended Norwich University; a young Afghan Moslem (later an officer in the United States Army who was killed a year ago in Korea). There were others in the group of equally diverse origins and of equally high quality — born of many lands, but Americans all! It was these for whom the inscription on the Statue of Liberty was written:

"Give me your tired, your poor,
your huddled masses, yearning to breathe free
Send these, the homeless, the tempest-tossed, to me
I lift my lamp beside the golden door."

This is the glory of our Country.
E. WINIFRED BRIGGS

DIRECTOR OF GUIDANCE OF MONTPELIER HIGH SCHOOL

My first experience in guidance was in a Teachers College where I had to live in a temporary army barracks dormitory with 160 girls. Besides the public rooms and the director's suite there were 20 rooms in which the students lived. With four double-decker beds in each room, chests, study table, and chairs the girls were just barely able to squeeze themselves and their belongings into the space. My guidance consisted mainly of keeping the house comfortable, advising the girls to keep their belongings picked up, and helping them to learn to live peaceably with each other.

GLENN AIKEN

Science

My first teaching experience occurred as a research fellow in the Physics Department at Amherst College. The salary, on which the instructor was expected to live on (and did) was $75 per month. The intellectual diet was very stimulating, but 1 1/2 meals per day left something to be desired gastronomically speaking. A visit to the football practice field brought down upon my head the wrath of an over-zealous manager who suspected me of “scouting” (a practice frowned on in those days.) Though somewhat inarticulate were his apologies when, the next morning, he discovered the erstwhile “scout” facing him across the demonstration desk in the lecture room where he had come for his first class in physics.

MRS. ARLE BARROWS

Art

My first teaching experience was in a rural school in New Haven, Vermont in 1919. There were five pupils, one in each of the first five grades. Thirty-four weeks comprised the school year, and the salary was $540.00. I taught there 2 years paying $4.00 a week for board and room. The first summer, I attended summer school at U. V. M. The second summer at Columbia University in New York. It was a grand experience, and $540.00 was adequate.

ROBERT F. BELDING

Mathematics

My first teaching experience was in a private school. I suppose I went through about the same experiences as all new teachers. Like them, I gradually “learned the ropes.” One of these “ropes” is a fundamental principle: Concerning the status of pupils’ knowledge, a teacher must venture no prediction; they always know more than we expect, but less than we hope for.

KATHLEEN I. BRETTELL

French and English

My first teaching assignment included a seventh-grade English class, predominantly lively boys. A popular radio program that fall was the HIT PARADE with its tobacco auctioneer whose commercial always ended, “Sold, American!” On the day in question I had just delivered what I hoped was a firm enough reproof to bring at least temporary order, when, at the very back of the room, a boy, known to his pals as Slugger, gave his desk a resounding slap and, with all the skill of a seasoned professional, chanted, “SOL-D! A-MER-I-CAN!”

HENRY W. CASWELL

Social Studies

My first experience at teaching school was at Middlebury High School while I was still in attendance there as a senior.

My mathematics teacher was also the principal and was quite often called away from class on administrative matters. On those occasions he would enlist us mathematics majors to take over the first year classes of Algebra and Plane Geometry. Both the students and I enjoyed this change.

This indoctrination into the teaching field played an important role in deciding my future and, I might add, in changing my attitude towards teachers and education.
GRAY R. COANE
Mathematics and Science

During the fall of 1932 I began as a teacher in the Manual Training department of Montpelier High School and as coach of basketball. Later in the year I taught social studies and geography. (Strange how versatile man can be!)

My initial experience as a coach showed how inexperienced I was in this field of endeavor. In the first game with Bradford the score was 48-16 in our favor before I dared to substitute. Mark me down as a conservative!

MILICENT L. DIXON
Commercial

My first experience in teaching was in Enosburg Falls, Vermont, a small but lively community. I took over at the beginning of the second semester, just as mid years were over—in fact, just ??? years ago now (as I am writing this).

The one thing I remember about that first semester is the difficult time I had trying to prepare each day for six or seven different commercial subjects, then trying to correct the papers received from all those classes, plus the extra duties required of all teachers. I soon caught on that teaching school was no "cinch".

Had it not been that my colleagues were most helpful to a beginner, the students a really fine group of youngsters, and the townspeople friendly and appreciative, I would probably have changed professions after that one semester. But I guess I'm glad I didn't.

MILDRED L. HALLGREN
School Nurse

My first experience in school nursing occurred in Windham County. The local doctor examined the children at the school. One day there were eight children from the "Little Red School House" referred for tonsil operations. One of my duties was to make arrangements for the clinic. A local home was set up as a hospital; the anesthesia was given in the dining room; and the operations performed on the kitchen table. The sunporch was the recovery room. A few hours after the operations the children were given a treat of ice cream, and then taken to their homes.

JOHN L. HARMAN
English

What do you know about Arkansas? I found on my first teaching job that Clarksdale in the Ozark Mountains boasted a co-educational college with a student work program. We lived somewhat like pioneers, but what bountiful hospitality we received! The enthusiasm of the students for learning compensated for roughing it. Of course, there was no skiing, but plentiful Indian relics could be hunted around the neighboring mesas.

LEON R. HARVEY
Coach and Physical Training Director

My first school teaching experience was an awe-inspiring lesson in how little I knew of those I was entrusted to handle.

The theory of teaching is easy, the practice of teaching hard, so my first day in school was (as my last promises to be) a search for that elusive something that makes humanity click.

ISABEL HOLMSTROM
Physical Training

My first experience in teaching was in Medford High School in Massachusetts. The school had a student body of about 3,000 and there were approximately one hundred girls in each gym class. We started the season with field hockey which necessitated a walk of three blocks to the playing field.

I have often wondered what the many people thought who lived en-route to the field or were driving by when they saw 100 girls walking along in shorts carrying hockey sticks.

VIOLET E. KETTELELLE
Biology and Botony

My first teaching experience was at a private Methodist school. I had one biology, one general science, and three French classes. Besides teaching, I had to chaperone the girls
after school and week-ends at parties and on hikes. Evenings, I supervised a study hour. After all were in bed, I could check papers and prepare lessons if I had any energy left. On Sundays, I took groups to Sunday School, Church, Young Peoples, Evening Service, and ended the day by attending vespers in the dining-room.

VERNE L. MCDONALD, Jr.

COMMERCIAL

My first teaching experience was teaching aerial photography to ex G. I.'s for a French-German woman who owned the Maine School of Photography.

One of my first duties was to test her camera from a plane to determine its adaptability for aerial pictures. The test run included pictures of a large paper mill from an altitude of about 1,000 feet.

When we developed the film pack she exploded into a tirade of impressive language for it seems that I had double-exposed her very important pictures that she had taken at a banquet the previous evening. (I thought it was kind of funny to see a dinner banquet floating down the middle of the Penobscot River.)

I still don't know whether I got cussed in French or German.

FORREST MYRICK

HISTORY

Since my first experiences in teaching were many years ago, my memories of them are somewhat vague. However my first night at the boarding school and Jr. College in Portland, Maine still stands out in my memories. After coming to Portland on a night train and spending the first day checking over athletic equipment and laboratory materials, (I was to teach science and coach athletics), I found myself ready for bed at an early hour. It may be that I hit the hay a little too literally or with too much bounce. Anyhow no sooner had I done so than I found myself and the mattress on the floor with the headboard on my head and the footboard on my feet. After removing the uncomfortable impedimenta, I spent the remainder of the night where I had been deposited.

DORIS I. NEWTON

Music

My very first teaching experience came in High School days. There must have been a desperate shortage of substitutes because I was asked to substitute for two days in a primary grade. I don't remember which grade or much about what happened, but I do remember I was paid for it, and, at least, it didn't discourage me completely, since I am still at it!

HELEN T. SAULT

LATIN

The first of my teaching experiences which made any lasting impression on me must have done so because of the embarrassment it caused me. I had a very strong conviction that my most effective ally would be to make my initial appearance dressed in my best finery. Consequently, I purchased, as part of my ensemble, a pair of my high heeled, very tight shoes. After standing on my feet, encased in their somewhat uncomfortable glory, for six periods, I was delighted to sit at my desk in study hall. There I slid my feet under the desk and out of the shoes, and breathed a sigh of comfort and relaxation. All would have been well, save that fifteen minutes after the start of the period, the principal appeared at the door at the far end of the huge study hall and announced that I was to go to the office to accept a long-distance telephone call. Obediently I stood, forgetful of my unshod state, and trotted the length of the study hall, leaving behind me one pair of elegant red shoes and a roomful of delightedly convulsed pupils.

HAROLD W. SHIPP

HISTORY AND ENGLISH

My first experience in teaching school consisted of teaching classes in English, history, mathematics and mechanical drawing. In the winter there were plays to be coached, while baseball occupied the spring weeks. Aside from this it was expected (!) that I teach a Sunday School class and conduct the church choir.
Fortunately, the constitution was strong and the colleagues, helpful, patient and enjoyable. My mistakes were not disastrous, and the students were most cooperative and eager.

MRS. MARGUERITE SMALL
English

Because there were too many teachers in my field of teaching, I first took a position in a rural school. I learned finally how to make a wood fire burn well enough so that water wouldn't freeze during school hours. I learned from my pupils how to catch a mouse without a trap. Everything was a great adventure, and I'm inclined to believe that I learned more than my scholars. I must not forget to add that the salary was $400. Inasmuch as my parents had to buy me a car in which to commute, it was an expensive but gratifying continuance of my education.

LUCILLE C. SPAULDING
Secretary to Mr. Chastney

My first experience as a secretary was in a doctor's office. A routine day consisted of answering phone, doing laboratory work, giving diathermy treatments, general office work and acting as a receptionist. I met all types of people, all interesting, and all with different problems. A doctor's office is similar to a school office—never a dull moment and a very busy place!

MRS. DOROTHY C. TOBY
Home Economics

I did my first teaching in Manchester, N. H., as part of my senior college work. One day the German teacher was absent, and I was asked to take her classes. I knew not a word of German, but realizing I would get $5.00 for this I promptly accepted. The class translated the assignment, corrected sentences at the board, and carried out the plan of the day. I'm still wondering if those pupils knew my plight!

LEONARD R. TOMAT
Dramatics and Speech

If student teaching is considered a teaching experience (and I assure you it's an experience), the students at Burlington High School were the first to suffer under my methods. Of course, I can readily admit now that I do not know who was more frightened the first day I taught at MHS in September, 1950, the green freshmen or inexperienced me. Also, I shall never forget the embarrassed transfer student whom I met out of school one evening last year. He innocently asked after a short conversation on school life, "What do you expect to do after graduating from MHS?"

DONALD S. TOWLE
Manual Training

Being a foreigner to Vermont from the State of Massachusetts I ventured into the wilds for my first school teaching experience. After a month of assimilating the foreign culture of this great state, one of my most brilliant students commended me with these encouraging words, "How funny you talked win ya fist cum heeh, Mr. Towle. Naow ya kin talk good English jest like us'n."—Years have passed and naow I kin talk jest foine!

DONALD W. McCLELLAND
Superintendent of Schools

My first teaching was in a high school of sixty pupils with two other teachers. I was principal of the high school and of the grades in the building. I taught seven classes a day—all the classes the other teachers couldn't or wouldn't teach, but mostly Latin, French, mathematics and physics—almost everything but typing, shorthand and English. One important part of the job was to clean up a bad disciplinary situation. I did it.

FRESHMAN YEAR
Fate gave us our first big hand
With Cynkie as the dealer.
She was helped by Jane and George
Plus Don who was no stealer.

As we shuffled in that glorious day
Joyous hearts with sudden flutter,
They soon began to ask our names
Which caused us all to stutter.

The JV cheerleaders were lacking four
Which was a lot, that's true.
We started out by choosing the best:
Sandy, Cynkie, Jane, and Sue.

Our first experience with exams and tests
Proved a bit of a feat.
But then we contributed to sports and song
And our spirit could not be beat.

SOPHOMORE YEAR
Again destiny sat in a hand——
This time Roberta was boss.
Combined with Ronnie, Pasina, and Kay
This year could bring no loss.

This statement proved to be true, all right
By the performances of Ron, Wayne, and Gale.
Evelyn added to the success of the Masque
Which meant we could not fail.

There were not many places we did not see
And that does not exclude All-State.
Surely Ronnie and Wayne, among others who went,
Will never forget that date.

Our football team was really fierce
While the ski team had no fear;
The former had Jeffrey, Pierce, and McDermott;
The latter had Chapman and Lamphere.

JUNIOR YEAR
Who would next be
On top of the pack?
Dave, Robbe, Betty B. and Gus:
Ace, king, queen, and jack.

The Junior Prom was a really full house,
The kings with armor and lance,
In father's car and a rented tux,
All brought their queens to the big dance.

In '51 our class began
To blossom forth with talent.
"Sugar and Spice" and the "Family Upstairs"
Proved our class was dramatically gallant.

A milestone was passed in the Solonscope's fame
Which gave to its staff much credit:
Our paper was printed by professional means
That made it much easier to edit.

SENIOR YEAR
We cut the deck with four trump cards:
Chris, Pasina, Robbe and Sue.
We can't imagine a better four
To round out our days here. Can you?

Jane was Student Council Pres.
Which was no little task.
While Polly headed the G A A
And Sandy had the Masque.

Music added a lot to our fun,
Pres. Ronnie being first-rate.
We all tried to do our very best,
To extol the 25th anniversary of All-State.

You and I began in the fall
Then came Variety Show and "Trial by Jury."
Meanwhile four student productions kept Gale,
Ronnie, Cal, and Wayne in a fluery.

Yes, all this year we have raced about
Playing through all our days,
But now Graduation's here we part
To go our separate ways.

ACTIVITIES
The Record Board, under the supervision of Mr. Harman, puts out a bigger and better Record. Every member of the Record Board works hard in their spare time in order to get the Record to press.

The annual Record Board Fair was held at Union School on November 8th. There was fun for all with booths and games. Talent from each class provided entertainment throughout the evening. Everyone had a very enjoyable time. The members of the Record Board sold candy and cokes at the basketball games in order to raise money.

The members of the Board are chosen from the Junior and Senior Classes. A chairman heads each committee and the other members serve on these committees.

Solonscope

This year Montpelier High School students were presented with a highly improved "Solonscope". By the use of more pictures and four columns instead of three, our school newspaper was a good credit to our school.

The big features of the "Solonscope" were based on future events instead of "gone-by's", which helped to make the paper more interesting.

Several members of the "Solonscope" sold candy at MHS social events to help raise money, part of which was given to the Argus Santa at Christmas time.

Library

In the back part of the Study Hall is the library. It is very popular and has many visitors during the day. It is well equipped with books of fiction, biographies, and reference books of all kinds. The library subscribes to current magazines and papers.

There is a staff of librarians, under the supervision of Mrs. Small, who keep the library neat, check the books in and out and keep them in their proper place. They also help students find books and mend torn pages and covers of the books.

The students volunteer their study hall to become a librarian. Each period you will find a librarian in the library to help you.

Mixed Chorus

The Mixed Chorus, which is the largest musical group in high school, is selected by tryouts. These are conducted by Miss Newton, the director of the group. The group meets twice a week and has presented several enjoyable concerts.

The first was a joint concert with the Montpelier Schools Band on January 7th. This was the first concert with our band and as it proved quite successful, we look forward to another one next year. On March 21st, another joint concert with St. Johnsbury was held in Montpelier and on March 22nd, in St. Johnsbury. The chorus participated in the Winooski Valley Festival held in Montpelier on April 16th. By May 10th, the chorus auditioned in Burlington at the Vermont State Music Festival.

The Chorus presented Gilbert and Sullivan's Trial By Jury on November 1, along with the one-act play The Perfect Gentleman.

Students are chosen from all schools over the state to make up the All-State Chorus of the Music Festival in Burlington. This is an experience that a person never forgets and it is looked forward to with great interest. Those chosen from Montpelier this year were:

Sopranos
Evelyn Stillwell
Beverly Briggs
Josephine Gomez

Band

During fourth period on Mondays and Fridays while most of us are studying hard, the Montpelier School Band is practicing diligently under the direction of Mr. Clifton Mix. The results of the groups' hard work is shown by the programs which they presented for MHS, as well as Union School and several other civic organizations.

In addition to its annual Spring Concert, the band also participated in a combined concert with the Montpelier High School Chorus groups. This was a new idea and it turned out very successfully.

Three boys were chosen to attend the All-State Band. They were: Sanford England, Drum; Frank Gross, Drum; Frank Greenberg, Cornet.

The band programs were highlighted by the seven twirlers, three of them who were newcomers this year.
This year for the first time the Freshman Chorus has participated in concerts outside of school assemblies. In the joint band and chorus concert in the fall, the freshmen proved their ability to handle difficult pieces.

The Chorus practices twice a week under the direction of Miss Newton. From many reports this group was one of the best Freshman Choruses that Montpelier High School has ever had. The upper class choruses will have plenty to cheer about when these music-minded freshmen join them next year. We hope they all will.
This year the Girls' Glee Club was a bigger and better chorus than ever. This was proven by the large number of public appearances which they made.

The Chorus participated in their annual two-night concert with St. Johnsbury Academy. They were also an important part of the Montpelier Schools Band and Choruses concert on January 7th, at which time they presented an entertaining and varied program.

The combined efforts of the Masque and Glee Club provided an evening of entertainment at their operetta, Trial By Jury, and the one-act play, The Perfect Gentleman.

Of course the Vermont State Music Festival is an important event in the Club's year and they trained vigorously for their audition.

This year the long awaited robes were purchased and arrived in March. Congratulations to Miss Newton and all the people who helped the Choruses earn these robes, for they can be very proud of them.

The Officers elected for the year were:

President: Ronnie Lawson
Vice President: Gordon Young
Secretary: Betsy Farrington
Treasurer: Elaine Ladd
Business Manager: Jane Blodgett

Jane Blodgett
Boys' Chorus

The Boys' Chorus, also under the direction of Miss Newton, is noted part of the M. H. S. Choruses. They meet once a week, but have a fine repertoire of folk songs and spirituals.

The Chorus has sung at the M. H. S. Choruses and Montpelier Schools Band Concert on January 7th; at the St. Johnsbury and M. H. S. concert on March 21-22 and at the Winooski Valley Festival on April 4th. They auditioned in Burlington at the Music Festival on May 10th.

A Boys' Quartette is a feature of this chorus and has stolen the spotlight many times. It is composed of John Goller, 1st tenor; Gordon Young, 2nd tenor; Ronnie Lawson, 1st bass; and Donald Miller, 2nd bass. They have sung at the Grange, the Variety Show, assemblies and at our concerts.
Masque

The Masque had a very prosperous season under the direction of Mr. Leonard Tomat, who was with us for his second year.

In place of the usual fall play, three one-act plays, directed by Senior Masque members, were given. The plays and several dramatic readings were presented on December 14 as "An Evening of Entertainment".

On November 1, 2, 3, the operetta, "Trial by Jury", was presented along with the one-act play, "The Perfect Gentleman". This one-act play was entered in the district one-act play contest and was awarded second place.

A very successful Variety Show was presented to a capacity crowd on February 14 with members of the Masque, Ski Club and Faculty participating. The year was rounded out with the spring production, "You and I".

A member of the Masque who earns twenty points is awarded a Masque pin. A member earning forty points receives a letter and becomes an honorary member of the Masque. Points are given for publicity work, stage crew, ticket selling, and other odd jobs connected with the production of shows.
THE PERFECT GENTLEMAN

This play presented along with “Trial By Jury” was a humorous story of a teen age girl who falls in love with her chemistry teacher. All would probably go quite well but her older sister and younger brother come along to add confusion and hilarity.

The cast was as follows:
Joyce Bennet
Neysha Rossi
Leon Induni
Lyn Steele
James Laird

YOU AND I

The old story of a young man’s choosing between a girl and a career is brought to life in “You and I”. The play has a modern touch and the able acting of the cast made it a great success.

The characters were as follows:
Maitland White       Leon Induni
Nancy White          Sandra Reynolds
Roderick White       Sanford England
Veronica Duane       Beverly McGibney
Geoffrey Nichols     Franklin Greenberg
G. T. Warren         David Bumgardner
Etta                 Susan Lovell

TRIAL BY JURY

Imagine the confusion when Angelina comes to court to sue her ex-fiancé for breach of promise, and captivates the heart of the judge, the foreman of the jury, the counsel, as well as all the jurymen. Snappy tunes and fine singing lead up to a very happy ending.

The cast was as follows:
Plaintiff—Sandra Reynolds
Judge—Ronald Lawson
Foreman of the Jury—Donald Miller
Counsel—Gordon Young
Usher—Burton Parker
Defendant—John Goller
Student Council

Representatives are chosen from every class to represent the class on the Student Council. One meeting is held every week in Myrick's room. Mr. Myrick is chosen by the School Board to be faculty advisor to the organization.

This year the Student Council for the first time joined the National Association of Student Councils, NASC pins were made available to the members.

Suggestions that students want to be brought before the Council may be deposited in the box in the Library.

The officers of the Council are as follows:

President: Jane Willey
Secretary: Robert McLeod
Treasurer: Robert McLeod
Vice-President: Ruth Ann Peterson
Cheer Leaders

Led by our seven peppy cheer leaders no wonder our boys had a good sports year. There were five veteran cheerleaders: Cynthia Berry, Captain; Sandra Reynolds, Suzanne LeBourveau, Claire Barney, and Jane Willey. The two new members elected to the Varsity Squad were Norma Taylor and Marlene Martell. A newcomer, Ruth Ann Peterson, replaced Marlene shortly before the State tournament.

The pep rally held the night before the Spaulding game was unusually successful with the wholehearted support and good sportsmanship of the participating students.
The Ski Club of Montpelier High School produced a very fine ski team this year. The team participated in eight ski meets and although they failed to capture first place in the team standings, the boys took several individual honors.

The team consisted of twelve regulars and showed more interest and prospects for the future. Captain Jim Lamphere, who is a good all-around skier, won the cross-country event at the Northfield meet. Spike Holden and Jim Laird turned in exceptionally fine work and Bob McLeod showed himself to be the most improved skier on team, placing 5th in the downhill event at the last ski meet held in Montpelier.

The team will lose Bob Carr, Paul Chapman, Jim Lamphere through graduation. However Dick Turner and Al Johnston, co-captains for next year, will return with Van Armstrong, Roddy Hood, Bob McLeod, Spike Holden, Jim Laird, Doug Rice and Ronnie Slayton.

The Ski Meets were as follows:
Lyndon Institute Ski Meet
St. Johnsbury Trade School Ski Meet
Vermont State Divisional Ski Meet
Northfield High School Ski Meet
St. Johnsbury Academy Ski Meet
Montpelier High School Ski Meet
Spaulding-Montpelier High School Ski Meet
Triangular High and Graded School Ski Meet

The promoting of athletics and good sportsmanship is the purpose of the Girls' Athletic Association and during the year they have done much toward accomplishing this goal.

The Executive board, with Polly White as President, Betty McLeod as Vice President, Susan Lovell as Secretary and Cynthia Collins as Treasurer under the supervision of Miss Holmstrom, plans the activities for the organization. This includes the weekly participation and competition between the girls of different classes in basketball, volleyball, badminton, pingpong, softball, and any other sport that is possible to be played in our gym.

The social events this year consisted of a Play Day, in which six outside schools participated in basketball and other sports, and the annual spring get-together. During the February vacation several Gaa'ers spent some time skiing at Mount Mansfield with the State Ski Dorm as their quarters.

Awards are given at the conclusion of the year, for those who have participated a certain number of hours in the sports played after school, and also those which the members participate in outside of school such as hiking, skiing, skating, bowling, horseback riding, snowshoeing, and the like. Awards are given as follows:

- 50 points—a small shield
- 100 points—a large shield
- 200 points—a letter
- 300 points—a pin
- 400 points—your choice of several things.
SPORTS
Football

This year, again as last year, Montpelier had a poor and dismal season, absorbing 7 straight setbacks after what appeared to be a good start against Hartford. This year’s and last year’s records now say that M. H. S. has received 14 straight defeats, which by all means must and should be stopped next year.

After the first two games, which were lost by one touchdown, many observers thought that they were going to have a good year, but due to circumstances beyond our control, we lost our ace halfback which hurt the team greatly. Then the team took a sudden nose dive and was very decisively beaten in the remaining five games.

Although they didn’t win any games, their sportsmanship and conduct on the field were very good. They were a group of good losers and took their losses with a smile.

This year the team was captained by Bill Gidney, as it will be next year. The backfield was composed of Charlie “Choo Choo” Jerd, Jim Barrett, Frank Greenburg, Don Miller, Wayne Woods, Eddie Smith, Doug Boardman, and Freddie McGibney. On the flanks were Dave Jeffrey, Dick McManis, Chris Collins with Bob Bjorn and Kennie Nelson alternating at the ends and tackles. The tackles were “Red” Willey, Roger Ball, “Farmer” McGrath, John Ewen, and Harold Calloway. The guards were Bill Laufman, Capt. Bill Gidney, “Britt” Rivers, Paul Chapman and at center was Dick Turner with Jim Lamphere as alternate.
JAYVEES

This year the Jayvee squad, under the able coaching of Mr. Coane, had a very successful season, winning four games without a loss.

They walloped Spaulding twice and Newport and Lyndon once each.

There were many good players on the Jayvee's which should help the varsity squad tremendously in the coming year.

With seven lettermen returning from the 1950-51 basketball squad, the MHS Solons showed a marked improvement in their play of the past season, coming up with their best club since the 1949 State Champs.

ATHLETIC ASSOCIATION

Two members from each class are elected every year to represent their class on the Athletic Association.

The purpose of the Association is to sell tickets at the football and basketball game and to take donations at the baseball games. This pays for the expenses of the teams, the equipment and the referees. This organization also buys and gives out the awards which the various students have earned in different sports.

A volunteer ticket squad and members of the Association are in charge of the tickets for the football and basketball games.

The officers this year were: President, Monty McDermott; Secretary, Robert Bjorn; Treasurer, Ronnie Lawson.
Back Row: John Geller, Mr. Harvey, Reginald Cooley;  
Second Row: Donald Miller, Robert Bjorn, Monty McDermott;

With seniors, Monty McDermott and Dave Jeffrey, plus the sparkling play of undergraduates, Spade Cooley, George Meletes and Bob Bjorn, the Solons moved along to a fairly successful season. Also showing well in reserve roles throughout the campaign were Leon Induni and Frank Greenberg, top men from Coach Harvey’s bench.

The club in establishing its 16-6 record, as the opposition soon found out, was a tough one to beat, with tremendous scoring ability. Six times during the season the Solons scored 60 or more points in games and topped their best scoring effort in years in the final game against B. F. A. (St. Albans) with 71 points.

When the honors were passed out at the end of the season, our boys were on hand to take their full share. Spade Cooley set a new Northern League scoring record with 185 points to edge rival Spaulding’s center, Wilbur Mann, who collected 182. The Solons great rebounder, Dave Jeffrey also established a new record in the tournament with 26 points for a single game, and placed on the All-Tournament first team.

In the voting for the All-Northern teams Spade Cooley was selected for the first team while Monty McDermott and Dave Jeffrey were picked for second team berths. Top point getter for the regular season went to junior, Spade Cooley, with 277 points while Dave Jeffrey led in foul shooting to capture the State Highway trophy making 60% of his attempts.

The Solons lose the majority of their squad through graduation this year with McDermott, Jeffrey, Induni, Greenberg, Charlie Jerd, Dick McManis, Sandy England and Robb Pierce leaving. However prospects still look bright for the future with men like Cooley, Bjorn and Meletes to start building on. Adding such standout players as Jimmy Barrett, Connie Rowell and Paul Jeffrey who will be moving up from the fine Jayvee squad of last year, the Solons should come up with a well balanced team—the club that opposition will be pointing to as the team to beat.

“JAYVEES”

The junior varsity again came up with a winning season, fashioning an impressive 17-3 record for the year. The Jayvees showing excellent team play and a tremendous will to win, won their first 10 games before bowing to People’s Academy. The other two losses were to Spaulding and Burlington. 

Captain Jimmy Barrett and Connie Rowell were the mainstays of the well organized unit with Paul Jeffrey, Wayne Hersey and Pete Bagalio adding their talents to make the successful season.
Baseball

With the coming of the warm weather again, Montpelier High has started its baseball practice. Although they are getting a rather slow start because of the heavy snows this past winter, the team on the whole looks as though it is in good shape and seems to be ready for a good season.

The team has many veterans coming back this year. With men like George “Sweetwater” Meletes at second, Bob Bjorn at third and “Farmer” McGrath at first with Frank Greenberg alternating at first and in the outfield. The shortstop position is being held by a newcomer, Jim Barrett, who looks as though he will be able to fill the hole left by Bill Ward very well. Stubby “Orgie” Henry will, as last year, do most of the catching chores with the newcomer, Fred McGibney as his alternate.

In the outfield there are only two veterans returning: Captain Dave Jeffrey and “Mighty Mo” McDermott, who plays center field when he isn’t pitching. Ken Nelson and Bob Alexander are new recruits for the other outfield berth.

The pitching this year seems pretty well taken care of with four veteran flingers coming back. They are “Maury” McDermott, “Britt” Rivers, Charlie “Choo Choo” Jerd, Vaile Robinson and a newcomer, Jim Richardson.

If pre-season practice is to mean anything, Montpelier High should be in for a good season. Here’s the schedule:
